SUMMARY

Full Stack Web Developer with a background in Anthropology and a passion for continuous learning. As an anthropologist and a web developer, I understand how important it is for apps to be accessible and easy to use for its users. Thus, I always seek for effective ways to combine user interaction and accessibility. Among my peers, I am usually known as someone who always puts 100% into my work and a strong attention to detail for all kinds of work.

TECHNICAL SKILLS

Languages: JavaScript ES6+, CSS3, HTML5, SQL, NoSQL
Applications: GitHub, MongoDB, MySQL
Tools: Express, React, Node, Handlebars, Query, Bootstrap

PROJECTS

Youtwitch | https://github.com/manuelleungchen/YouTwitch | https://bit.ly/3d3ilcK
- A web app that uses twitch and youtube api to provide users with live streams based on the user queries.
- Integrating youtube api, CRUD and backend.
- Youtube and twitch api, handlebars, javascript, node.js, mySQL, and materialize CSS.

bonAppvoyage | https://github.com/UofTbootcampgroupproject/bonAPPvoyage | https://uoftbootcampgroupproject.github.io/bonAPPvoyage/
- A web app that presents users with recipes based on their query, then provides them with places of interest based on the type of cuisine of the recipe. Originally, created to help users see the world from their computer and cook delicious food while at home during the 2020 pandemic.
- Integrating triposo api, and jQuery.
- Triposo and spoonacular api, jQuery, javaScript, and bulma CSS.

Workout-tracker | https://github.com/Jlin72/Workout-tracker | https://stark-springs-19756.herokuapp.com/
- A web app that allows the user to track their workout. To track their workout the user just needs to add their information to the respective forms.
- Integrating the back-end, adding mongoDB and creating the api and html routes for the server.
- mongoDB, mongoose, javaScript.

Field Archaeologists   2017 – present
Archaeological Services Inc.   Burlington, ON
Responsibilities were but not limited to: retrieval and identification of archaeological artifacts, cataloguing and storage of archaeological artifacts, promoting effective communication between management and field workers, and help with planning details for future excavations.

Key Accomplishments:
- Worked on a variety and types of sites. Most of them were either priority or the hardest sites the company ever had to dig.
- Took leadership role when supervisor was not present.
- Hard work that led to an excavation finishing weeks before it was due and before going over budget.

EDUCATION

Bootcamp Certificate: University of Toronto, Toronto, ON
A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Node Js, MySQL, MongoDB, Express, Handelbars.js & ReactJS.

Bachelors in science: University of Toronto, Mississauga, ON
A bachelor's degree in anthropological science. Mainly focused on archaeology. Gained an insight in different skills: communication, writing, research and data-entry.
